

Drug gangs in the 10th District are targeting suburban teens and we are looking for the best ways to combat this growing threat. On Wednesday night, [I joined officers of the Waukegan Police Neighborhood Enforcement Team](#) as they raided known gang houses. Three “NATION” handguns and cannabis were found and one suspect was arrested. The action continued last night as the Enforcement Team arrested six alleged gang members on their way to a drive-by shooting. I am working to secure a combination of funding for police and faith-based groups to fight the spread of gangs in our district.
